

4 Day - Enhanced Clinical skills Course

DREEM, A Floor, West Block.

Day 1: Fundamentals of the medical consultation and cardio-respiratory hx taking

Time	Session
9:30 – 10:00	Introductions Contextualising the course
10:00-11:00	The medical consultation
11:00 – 11:15	Break
11:15-12:00	Clinical bias and decision making
12:00-12:45	Lunch
12:45-14:00	Taking a cardio respiratory history the cardinal symptoms
14:00-16:00	Simulations x2 rotations
16:00-16:15	Summary and close

Day 2: Examination of the cardio respiratory system

Time	Session
9:30- 10:30	Applied cardiovascular anatomy and physiology
10:30-10:45	Break
10:45-11:45	Applied respiratory anatomy and physiology
11:45-12:15	Demonstration of the focused cardio respiratory examination (1x sim patient)
12:15-13:00	Lunch
13:00-14:00	Focused examination of the cardiorespiratory system
14:00-16:00	Examination of the cardio respiratory examination system (2x simulations)
16:00-16:15	Summary and close

Day 3 - Gastrointestinal history taking

Time	Session
9:30- 10:15	Contextualizing red flag in clinical decision making
10:15-10:30	Break
10:30-11:30	Applied gastrointestinal anatomy and physiology
11:30-12:30	Taking a gastrointestinal history the cardinal symptoms
13:00-13:30	Lunch
13:30-15:30	Simulations (2x simulations)
15:30-15:45	Summary and close

Day 4 - Examination of the gastrointestinal system

Time	Session
9:30- 10:15	Patient referral/escalation
10:15-10:45	Documentation
10:45-11:00	Break
11:00-12:00	Examining the gastrointestinal system
12:00-12:30	Demonstration of the examination of Gastrointestinal exam
12:30-13:00	Lunch
13:00-15:30	Simulations (2x simulations)
15:30-16:00	Summary, evaluation and close
